

Summer School Contract for Students and Parents Summer, 2010

Description: Hall County Schools' high school summer program is provided through one-on-one, online instruction, along with summer school teachers to facilitate student learning. Designed to help students graduate on time from high school, these online courses are aligned to the state curriculum and are self-paced.

The high school summer school program provides two options for taking courses needed for high school graduation: credit recovery and initial credit. "Credit recovery" is for students who have failed one or more courses needed for high school graduation. Maximum grade for a "recovered" credit course is 70%. "Initial credit" is for students who enroll in a course for the first time and earn a final grade of 70% or higher.

Students enrolling for Hall County School's computer-based classes earn Level 1 credit only. (See Hall County High School Student Planning Guide for more information about Level 1 courses.)

All summer school courses are taught through computer-based instruction; students who have an internet connection may work from home, 24 hours a day, seven days a week. Students may also work on courses at LCA during the days & hours shown above. Students must take all tests at the LCA campus – no tests will be available to students at home.

*Note: To complete these courses during the summer, a student MUST be logged on and "active" at least five hours per day. Students who spend less than five hours per day risk not finishing a course by the end of the session. No refunds are provided for students who do not complete a class by the end of the summer session. Students who do not complete these courses will have an opportunity to finish before or after school when the new school year begins.

Behavior: Students attending the summer program shall follow all rules in the Hall County Schools Code of Conduct printed in the high school handbook. (A copy of the handbook is available in the school office as well as online at www.hallco.org.) Students who choose to work on courses at the Lanier Career Academy are expected to use the computer labs for instructional purposes only; non-instructional use is prohibited. Any misuse of computers or other technology will result in immediate removal from the summer program. Students must display respectful behavior toward the teacher, other students, and the school facility itself. If any violations of the Code of Conduct occur, a student is subject to immediate removal from the summer school program; no refunds will be provided.

Attendance: All students must report to LCA for the first day of class on June 1st. The computer lab will be open Monday through Thursday, 8:30 a.m. to 11:30 a.m., 12:30 p.m. to 3:30 p.m., and 6:00 p.m. to 8:00 p.m.. Each student will have the opportunity to work from the computer lab or log on and work from home. All exams and the state's End-of-Course-Test (EOCT) will be given at the LCA computer lab. All EOCTs will be given on June 24th at LCA; the make-up date for EOCT's is June 25th. Remember: To complete a course during the summer, a student should be logged on and "active" at least five hours per day. Students who spend less than five hours per day in active learning risk not finishing a course by the end of the session. Students must attend the session they have registered for at least every day. Two absences or more will result in removal from the summer school program; no refund will be provided.

Refunds: No refunds will be given after the first day of class.

Behavior Agreement: This agreement must be signed and returned to LCA by Thursday, June 3rd. Students failing to return the agreement by the deadline will lose computer access and will not be allowed to continue class on Friday, June 4th.

We have read the above expectations for summer school and agree to abide by the conditions.
