

Turn your creativity into an occupation. This Cluster offers opportunities to design, produce, exhibit, perform, write, or publish in a variety of media, including theater, film, textiles, newspapers, radio, and television. While not all sectors are likely to grow, employment for writers, editors, producers, and video production personnel is expected to increase faster than average. Because of the work's appeal, competition can be fierce. A background in math and physics and aptitudes for working with electronics and mechanical equipment will be useful in the A/V and Telecommunications pathways.

Other Career Possibilities:

Actor/Actress, Telecommunications Technologist,
Printing/Graphics Technologist, Journalist, Audio
Engineer, Video Producer
