Executive Summary
Introduction

Every school has its own story to tell. The context in which teaching and learning takes place influences the processes and procedures by which the school makes decisions around curriculum, instruction, and assessment. The context also impacts the way a school stays faithful to its vision. Many factors contribute to the overall narrative such as an identification of stakeholders, a description of stakeholder engagement, the trends and issues affecting the school, and the kinds of programs and services that a school implements to support student learning.

The purpose of the Executive Summary (ES) is to provide a school with an opportunity to describe in narrative form the strengths and challenges it encounters. By doing so, the public and members of the school community will have a more complete picture of how the school perceives itself and the process of self-reflection for continuous improvement. This summary is structured for the school to reflect on how it provides teaching and learning on a day to day basis.
Description of the School

Describe the school's size, community/communities, location, and changes it has experienced in the last three years. Include demographic information about the students, staff, and community at large. What unique features and challenges are associated with the community/communities the school serves?

Flowery Branch High School is located on the southern edge of Hall County adjacent to Gwinnett County. It is the largest of 7 high schools in the Hall County school system, with a current enrollment of 1,738 students. The school has also seen continued growth in student enrollment over the last 6 years; while other high schools in the district have experienced declines in enrollment. We have averaged between 40-60 new students each year.

Due to the close proximity of Flowery Branch to Gwinnett County, the growth in student population may be attributed to the lower tax digest in Hall County versus Gwinnett. Many families choose to live in south Hall County and commute to work in Gwinnett and Atlanta. The 2010 census report notes the Flowery Branch community has seen 214.5% population growth rate from 2000 to 2010 ("U.S. census bureau," 2011), and through 2012 has reported a 232.9% growth rate. Recent housing upstarts in the largest subdivisions within our attendance zone should reflect an upswing in student enrollment for 2015-2016.

Student population demographics mirror that of the Flowery Branch Community. The 2010 US Census community demographic information for Flowery Branch, Georgia shows (73.7%) Caucasian, (13.8%) Hispanic, (8.5%) African American, (2.7%) Asian, (2.0%) Multi-racial, and (0.3%) Native American. FBHS student demographics of Caucasian (72%), African American (8%), and Multi-racial (2%) is reflective of the area demographics, while the school enrolls a larger percentage of Hispanics/Latino (17%) and only (1%) Asian students which is below the area percentage population. Student enrollment by other subgroups, consists of (3%) Limited English Proficiency, and (%) Free and Reduced Lunch, which is below the county average. Our percentage (12%) of Students with Disabilities is higher than the county average of (10%).

Our staff of 135 is comprised of 113 certified employees, 11 para-professionals, 7 classified and 4 others (school nurse, central office and staff and a resource officer). Twenty-seven of our teachers are AP certified.
Provide the school's purpose statement and ancillary content such as mission, vision, values, and/or beliefs. Describe how the school embodies its purpose through its program offerings and expectations for students.

Our charter school's mission statement is expanded from our current mission statement:
Fostering Beliefs in Higher Standards. Flowery Branch High School, a Global Studies and Leadership Academy's mission is to increase student academic achievement through a focus on global studies and leadership. Through organizational innovation this design will create opportunities for interactive, productive, authentic learning for students of all academic levels and will encourage and motivate students to develop their self-selected interests. We whole-heartedly believe that leaders of the future must encompass a plethora of skills that range from social interaction, accountability, and awareness of global concerns.

Students have exposure to a variety of best practice instructional approaches, both traditional and technology based, as we pursue global concepts through the lens of leadership. Through authentic learning experiences, we expect graduates of Flowery Branch High School, a Global Studies and Leadership Academy will have more opportunity of becoming productive global leaders and contributing citizens of the international community within our borders and beyond.
Notable Achievements and Areas of Improvement

Describe the school's notable achievements and areas of improvement in the last three years. Additionally, describe areas for improvement that the school is striving to achieve in the next three years.

We have added 16 AP certifications to teachers over the last two years giving us a total of 27 teachers holding AP certification. Increasing AP certifications has been a point of emphasis and it is alone one of our charter goals. FBHS was recognized as an AP STEM school by the College Board in the spring of 2012. Schools are given AP STEM designation based on specific criteria. Students must test in at least (2) AP math courses and two (2) AP science courses (AP Calculus AB, AP Calculus BC, AP Statistics, AP Biology, AP Chemistry, AP Environmental Science, AP Physics B, AP Physics C, AP Computer Science). As a part of our focus on leadership we have implemented several programs including the Air Force JROTC and Peer Leadership classes. Our academic, sports, arts and club programs have all achieved region and state recognition as well as national recognition for achievement in their various areas. Flowery Branch High School was also awarded to Georgia School of Excellence in 2007. The Georgia Schools of Excellence Program honors schools from each of the state's 14 congressional districts. Elementary, middle, and high schools that are either academically superior or demonstrate dramatic gains in student achievement are awarded. These schools serve as models for other schools throughout the state. FBHS had never failed to meet Adequate Yearly Progress (AYP), in its 10 years of existence, and our CCRPI scores have improved in the first two years of measurement from (74.4) in 2013 to (75.2) for 2014. As the stakes get higher more focus and emphasis on student growth and success will require teachers, and administrators to disseminate, and analyze data on a regular basis to inform and guide their decisions and actions for school and student improvement.

I do not believe we are effectively using our technology. I am creating a technology team to be implemented in 2014-2015 school year. The focus of this team will be assisting teachers with ways to get students producing and using the technology in place. Our Activeboards are not used as effectively as I would like to see us using them currently. I think we need to improve on connecting with students and developing a rapport. I believe that we are losing sight of that piece with the focus so much on CCRPI and scores. The relationship piece is critical to me and our success in high school. I think we have room to improve on referring to the standard during a lesson. Currently teachers will refer to the standard, but it doesn't flow naturally. We have some teachers that are excelling in this area, but as a whole I think we need some improvement.
Additional Information

Provide any additional information you would like to share with the public and community that were not prompted in the previous sections.

We are a conversion charter school, and this is our third year as a charter school.
Self Assessment
Introduction

AdvancED's Self Assessment (SA) diagnostic is based on the AdvancED Standards of Quality, which serves as the foundation of the accreditation and continuous improvement process. The SA is a valuable tool for collaboratively engaging staff members and stakeholders in purposeful, honest dialogue and reflection to assess the institution's adherence to the Standards, and guide its continuous improvement efforts. The SA includes the institution's self-ratings of and the evidence cited for each of the indicators, comments that explain the indicator's ratings and an overall narrative for each Standard. The results of the SA are reviewed by the External Review Team as one essential component of the preparation process for the institution's External Review.
**Standard 1: Purpose and Direction**

The school maintains and communicates a purpose and direction that commit to high expectations for learning as well as shared values and beliefs about teaching and learning.

Overall Rating: 2.33

<tr>
<td>1.2</td>
<td>The school's leadership and staff commit to a culture that is based on shared values and beliefs about teaching and learning and supports challenging, equitable educational programs and learning experiences for all students that include achievement of learning, thinking, and life skills.</td>
<td>Commitment to shared values and beliefs about teaching and learning is evident in documentation and decision making. This commitment is regularly reflected in communication among leaders and staff. Challenging educational programs and equitable learning experiences are implemented so that all students achieve learning, thinking, and life skills necessary for success. Evidence indicates a commitment to instructional practices that include active student engagement, a focus on depth of understanding, and the application of knowledge and skills. School leadership and staff share high expectations for professional practice.</td>
<td>• Survey results • The school's statement of purpose</td>
<td>Level 3</td>
</tr>
<tr>
<td>1.3</td>
<td>The school's leadership implements a continuous improvement process that provides clear direction for improving conditions that support student learning.</td>
<td>School leaders implement a continuous improvement process for improving student learning and the conditions that support learning. Some stakeholder groups are engaged in the process. School personnel maintain a profile with data on student and school performance. The profile contains data used to identify goals for the improvement of achievement and instruction that are aligned with the school's purpose. The process includes action planning that identifies measurable objectives, strategies, activities, resources, and timelines for achieving improvement goals. Most interventions and strategies are implemented with fidelity. Some documentation that the process yields improved student achievement and instruction is available.</td>
<td>• Survey results • Agenda, minutes from continuous improvement planning meetings • The school continuous improvement plan</td>

Reflect upon your responses to each of the indicators and performance levels by considering and responding to the following questions when drafting your narrative response. Use language from the performance level descriptions to guide your writing. Cite sources of evidence External Review team members may be interested in reviewing.

Our statement of purpose is a strength because all stakeholders had input when the decision was made to become a conversion charter school. Staff members and community members voted to become/pursue a charter school. We need to improve on the documentation from the instructional meetings we have on a monthly basis. Values, beliefs, and instructional strategies are discussed, but not always documented adequately. We are continuing to adapt our process for improving student learning. The school's leadership team reviews data from state standardized tests, AP scores, and End of Pathway assessments. More teachers need to be trained on how to disaggregate the data we receive on tests in order to effectively improve their individual classroom strategies.
## Standard 2: Governance and Leadership

The school operates under governance and leadership that promote and support student performance and school effectiveness.

Overall Rating: 2.5

Reflect upon your responses to each of the indicators and performance levels by considering and responding to the following questions when drafting your narrative response. Use language from the performance level descriptions to guide your writing. Cite sources of evidence External Review team members may be interested in reviewing.

Our areas of strength were in engaging stakeholders in effective communication, and in the evaluation process of the purpose and direction. We believe that these areas are strengths because we are currently revising/developing our mission and vision statements for our school. We have a charter petition, but as a faculty we realized that the mission and vision of the school are not addressed. We are involving all stakeholders as we go through the process of developing our purpose and direction. Consequently our areas of weakness is in our purpose and direction because we do not have a clear stated direction. We realized this was an area of need so we have established a committee of teachers, and we are communicating with our governance board about our purpose and direction.
Standard 3: Teaching and Assessing for Learning

The school's curriculum, instructional design, and assessment practices guide and ensure teacher effectiveness and student learning.

Overall Rating: 2.58

| 3.10      | Grading and reporting are based on clearly defined criteria that represent the attainment of content knowledge and skills and are consistent across grade levels and courses. | Teachers use common grading and reporting policies, processes, and procedures based on clearly defined criteria that represent each student's attainment of content knowledge and skills. These policies, processes, and procedures are implemented consistently across grade levels and courses. Stakeholders are aware of the policies, processes, and procedures. The policies, processes, and procedures are regularly evaluated. | •Evaluation process for grading and reporting practices  
•Policies, processes, and procedures on grading and reporting | Level 3 |
| 3.11      | All staff members participate in a continuous program of professional learning. | Most staff members participate in a program of professional learning that is aligned with the school's purpose and direction. Professional development is based on the needs of the school. The program builds capacity among staff members who participate. The program is regularly evaluated for effectiveness. | •Results of evaluation of professional learning program.  
•Brief explanation of alignment between professional learning and identified needs | Level 2 |
| 3.12      | The school provides and coordinates learning support services to meet the unique learning needs of students. | School personnel use data to identify unique learning needs of special populations of students based on proficiency and/or other learning needs (such as second languages). School personnel are familiar with research related to unique characteristics of learning (such as learning styles, multiple intelligences, personality type indicators) and provide or coordinate related learning support services to students within these special populations. | •List of learning support services and student population served by such services  
•Training and professional learning related to research on unique characteristics of learning | Level 2 |
Reflect upon your responses to each of the indicators and performance levels by considering and responding to the following questions when drafting your narrative response. Use language from the performance level descriptions to guide your writing. Cite sources of evidence External Review team members may be interested in reviewing.

Areas of strength include the school’s curriculum provides equitable and challenging learning experiences, school personnel are involved in mentoring and coaching, and teachers plan and use instructional strategies that require student collaboration. Our district requires teachers to work on vertical alignment of curriculum for the academic courses. The district has developed Student Learning Objectives (SLO’s) for classes that do not have a state standardized test. AP teachers are also involved in vertical teaming workshops that are coordinated at the district level. This year our school started a new teacher mentor/metnee program. This program is modeled after the district model for new teachers.

Areas of weakness include staff collaboration, providing exemplars to inform students of the learning process, and the staff members participate in continuous professional learning process. Our academic teachers are involved in common planning for the tested subjects that they teach. Other areas do not have a scheduled collaboration time to meet. We have provided every staff member paid access to ASCD for last year and this year to help with professional development. We taken advantage of system professional learning days to provide a guest speaker for differentiation last year, and a follow up visit this year. Math teachers and their co-teachers will be attending professional development to assist them in providing a better co-teaching model for all students.
Standard 4: Resources and Support Systems

The school has resources and provides services that support its purpose and direction to ensure success for all students.

Overall Rating: 2.86

Cite sources of evidence External Review team members may be interested in reviewing.
We have a couple of areas of strength in this standard. Our faculty feels like we have clear expectations on the cleanliness and safety of this building and our students. We frequently practice/drill for all of our safety procedures. Our staff also believes that we have sufficient access to technology and media resources. Over the past two years we have added 230 Nooks to the English department for students to use. We have added 13 Dell Venue 8's for all departments to check out and use. Our science teachers have Mimio Boards in every classroom. I plan on using instructional money to continue to add to the Dell Venues in an effort to have a complete classroom set. We have started a technology team that will evaluate our technology needs and also train teachers on current technology, apps available, and social media uses.
Standard 5: Using Results for Continuous Improvement

The school implements a comprehensive assessment system that generates a range of data about student learning and school effectiveness and uses the results to guide continuous improvement.

Reflect upon your responses to each of the indicators and performance levels by considering and responding to the following questions when drafting your narrative response. Use language from the performance level descriptions to guide your writing. Cite sources of evidence External Review team members may be interested in reviewing.

We use data from state developed standardized test scores to evaluate and drive instruction at our school. This is an area that we are constantly trying to improve. We are having professional development on using the State Longitudinal Data Source that is available to all teachers in the tested subject areas. We are not as efficient in the areas where standardized test data is not available for those classes. We are planning on using the end of pathway assessments to evaluate the success of our instruction in the career tech classes. We are working on an actual stated process for data disaggregation, and evaluation with our staff.

Stakeholder Feedback Diagnostic
Introduction

The Stakeholder Feedback Diagnostic is designed to analyze the institution's survey results in terms of areas of achievement and areas that need improvement. Further, the diagnostic is essential to the accreditation and continuous improvement processes in that it provides the institution with a comprehensive view of the aggregate scores of the surveys administered, and the actual total of respondents for each survey type to derive a single score for this diagnostic. The performance level score computed at the completion of the diagnostic is used to broaden and enhance the external review team's understanding of the stakeholder's perceptions of the institution; the diagnostic should be used in the same manner by the institution as it engages in improvement planning.

<tbody>
<tr>
<td>1. Questionnaire Administration</td>
<td>Most required AdvancED questionnaires were used by the institution to receive stakeholder feedback. The minimum response rate for each population was met (parent questionnaire: equal to or greater than 20%, student questionnaire(s): equal to or greater than 40%, staff questionnaire: equal to or greater than 60%). Questionnaires were administered with reasonable fidelity to the administrative procedures appropriate for each assessment. In most instances, the stakeholders to whom these questionnaires were administered mostly represented the populations served by the institution. Appropriate accommodations were provided for most participants.</td>
<td>Level 3</td>
</tr>
<tr>
<td>2. Stakeholder Feedback Results and Analysis</td>
<td>All questionnaires had an average item value of 3.20 or above (on a 5.0 scale). Results of stakeholder feedback collected by the institution were acceptably analyzed and presented with reasonable clarity.</td>

Areas of Notable Achievement

Which area(s) indicate the overall highest level of satisfaction or approval?

Out of the three surveys the staff survey indicated the highest level of satisfaction at 3.79. The parent survey was 3.57, and the student response was 3.33.

Which area(s) show a trend toward increasing stakeholder satisfaction or approval?

Stakeholders reported that we have a school that is safe and clean.

Which of the above reported findings are consistent with findings from other stakeholder feedback sources?

The staff survey was rated higher than the other two surveys. This data is consistent with the personnel survey that we complete for the state each year. Staff reported average to above average rates on the personnel survey last fall.
Areas in Need of Improvement

Which area(s) indicate the overall lowest level of satisfaction or approval?

Our school lunches were consistently reported to low across all three surveys.

Which area(s) show a trend toward decreasing stakeholder satisfaction or approval?

Student and parent surveys revealed a lower rate of satisfaction with the school dress code.

What are the implications for these stakeholder perceptions?

The dress code has changed in the past year to be more strict. Parents and students understand the need for a stricter dress code, but report it to be difficult to find clothes to meet the requirements. Dress code changes are evaluated at the end of every school year for necessary changes.

Which of the above reported findings are consistent with findings from other stakeholder feedback sources?

Governance board members has expressed concerns about the school lunches this year. It was explained to the board that we have knew FDA guidelines for healthier food in our school. We believe some of the negative attitude toward the school lunch is because of the recent mandates.

Student Performance Diagnostic
Introduction

The Student Performance Diagnostic provides an institution with a process to report summative student assessments. This diagnostic is significant to the accreditation and continuous improvement process as it serves as a resource for schools to view content area assessment results required by the state, district, or other entities, determine the quality and reliability of the given assessments, and show the alignment of the assessments to the school's curriculum. The performance level computed at the completion of the diagnostic is used by the external review team as a comprehensive report to understand fully the institution's assessment program; the diagnostic should be used in the same manner by the institution as it engages in improvement planning.

## Evaluative Criteria and Rubrics

Overall Rating: 3.25

<table>
<thead>
<tr>
<th>Statement or Question</th>
<th>Response</th>
<th>Rating</th>
</tr>
</thead>
</table>
| 1.                    | **Assessment Quality**  
The array of assessment devices used by the institution to determine students' performances is sufficiently aligned so that valid inferences can be reached regarding students' status with respect to the entire set of curricular aims regarded as high-priority, "must accomplish," instructional targets. The documentation provided in support of this alignment is persuasive. All of the assessments used are accompanied by evidence demonstrating that they satisfy accepted technical requirements such as validity, reliability, absence of bias, and instructional sensitivity. | Level 4  |
| 2.                    | **Test Administration**  
All the assessments used by the institution to determine students' performances, whether externally acquired or internally developed, have been administered with complete fidelity to the administrative procedures appropriate for each assessment. In every instance, the students to whom these assessments were administered are accurately representative of the students served by the institution. Appropriate accommodations have been provided for all assessments so that valid inferences can be made about all students' status with respect to all of the institution's targeted curricular outcomes. | Level 4  |
| 3.                    | **Quality of Learning**  
Evidence of student learning promoted by the institution is acceptably analyzed and presented with reasonable clarity. In comparison to institutions functioning in a similar educational context, students' status, improvement, and/or growth evidence indicates that the level of student learning is at or above what would otherwise be expected. | Level 3  |
| 4.                    | **Equity of Learning**  
Evidence of student learning indicates achievement gaps exist among subpopulations of students, and these achievement gaps demonstrate a modest decline. | Level 2  |
Areas of Notable Achievement

Which area(s) are above the expected levels of performance?

Scores on Georgia standardized End of Course Tests indicate that American Literature, Physical Science, and US History are above the expected levels of performance.

Describe the area(s) that show a positive trend in performance.

Scores on Economics, American Literature, Coordinate Algebra, and US History End Of Course tests are showing a trend toward improvement. AP Economics scores are also improved over the past two years.

Which area(s) indicate the overall highest performance?

Our American Literature scores are consistently higher than all other standardized test scores.

Which subgroup(s) show a trend toward increasing performance?

Students with disabilities are showing a trend toward increasing performance in American Literature, Coordinate Algebra and Economics. The economically disadvantaged subgroup is showing a trend toward increasing performance in Ninth Grade Literature, American Literature, Coordinate Algebra and US History. The ELL subgroup is showing a trend toward increasing performance in Ninth Grade Literature.

Between which subgroups is the achievement gap closing?

The achievement gap is closing consistently between the total student body and the Economically disadvantaged. The gap is closing also with the Students with Disabilities in the areas of American Literature, Physical Science and Economics. The gap is closing with the English Language Learners in the areas of Ninth Grade Literature and Physical Science.

Which of the above reported findings are consistent with findings from other data sources?

American Literature and Ninth Grade literature scores are consistently higher than all other subjects at our school.
Areas in Need of Improvement

Which area(s) are below the expected levels of performance?

The areas below the expected level of performance include Coordinate Algebra and Analytic Geometry.

Describe the area(s) that show a negative trend in performance.

Math scores on have not improved significantly over the past three years. State assessments and curriculum have changed which appears to have an affect on our scores. In addition Biology is showing a negative trend in performance.

Which area(s) indicate the overall lowest performance?

Analytic Geometry and Coordinate Algebra scores are the lowest scores.

Which subgroup(s) show a trend toward decreasing performance?

Students with disabilities show a decrease in performance in Ninth Grade Literature, Biology and US History. The Economically Disadvantaged show a decrease in Biology. The English Language Learners show a decrease in Biology.

Between which subgroups is the achievement gap becoming greater?

The achievement gap seems to be increasing between the total school body and the English Language Learners.

Which of the above reported findings are consistent with findings from other data sources?

Our math scores are consistently lower performing in all of our data sources.

AdvancED Assurances
Introduction

AdvancED Policies and Procedures outline certain requirements that all institutions must meet in order to be in compliance. Institutions are required to verify whether or not they meet these requirements by answering a series of questions and in some cases, attaching evidence for review.

By responding to the questions in ASSIST and attaching evidence when required, the institution has verified whether it meets or does not meet each of the Assurances for Accreditation.
