Executive Summary
Introduction

Every school has its own story to tell. The context in which teaching and learning takes place influences the processes and procedures by which the school makes decisions around curriculum, instruction, and assessment. The context also impacts the way a school stays faithful to its vision. Many factors contribute to the overall narrative such as an identification of stakeholders, a description of stakeholder engagement, the trends and issues affecting the school, and the kinds of programs and services that a school implements to support student learning.

The purpose of the Executive Summary (ES) is to provide a school with an opportunity to describe in narrative form the strengths and challenges it encounters. By doing so, the public and members of the school community will have a more complete picture of how the school perceives itself and the process of self-reflection for continuous improvement. This summary is structured for the school to reflect on how it provides teaching and learning on a day to day basis.
Description of the School

Describe the school's size, community/communities, location, and changes it has experienced in the last three years. Include demographic information about the students, staff, and community at large. What unique features and challenges are associated with the community/communities the school serves?

Sardis Enrichment School is located in the Chestatee Community in western Hall County Georgia. For the past 5 years Sardis Enrichment School has been classified as a Charter School and is currently still a Charter School in the 2013/14 school year.

Sardis Enrichment School has a population of 637 students with a Certified and Classified Staff of 68 members with 7 of those staff members being male. The student population at Sardis has identified sub-groups with 34% being Hispanic, 67% Economically Disadvantaged, 12% Students with Disabilities, and 22% identified as Gifted.

During the past three years Sardis Enrichment School has experienced several staff changes. There was a change in principals in December of 2011. Since that time there have been 3 different assistant principals and also a change in school counselors. At the end of the 2011/12 school year there were 11 certified staff changes. Since that time there has only been one certified staff change.
School's Purpose

Provide the school’s purpose statement and ancillary content such as mission, vision, values, and/or beliefs. Describe how the school embodies its purpose through its program offerings and expectations for students.

It is the mission of Sardis Enrichment School to offer students at the very earliest stages of public schooling opportunities to become proficient readers and problem solvers by engaging them via the Renzulli Schoolwide Enrichment Model in authentic learning experiences that serve the surrounding community in order to improve student academic achievement.

The Schoolwide Enrichment Model will offer enrichment activities for all students based on interest while integrating all required Georgia Performance Standards and proficiency skills in reading and math. This approach will allow students the opportunity to progress at their own rate via hands on, inquiry based activities.

Very high expectations have been set for all students at Sardis Enrichment School. Currently Sardis Enrichment School has a goal of 90% of all students meeting or exceeding in all areas on the CRCT. Also 100% of students are expected to take part in Type I Enrichment Activities while 45% in Type II and 30% in Type III.
Describe the school's notable achievements and areas of improvement in the last three years. Additionally, describe areas for improvement that the school is striving to achieve in the next three years.

During the 2012/13 school year Sardis Enrichment School made several amazing accomplishments.

These accomplishments include having the highest percentage in the last six years of Meets and Exceeds on the CRCT in the areas of Math, Reading, Language Arts, and Science. The percentage of Does Not Meet on the CRCT in all areas was the lowest in the last six years. Sardis Enrichment School had the third highest gain on the 5th grade writing assessment in Hall County Schools. Kindergarten GKIDS scores at Sardis Enrichment School were some of the highest in Hall County Schools last year. Sardis Enrichment School was home to the 4th Grade winner of the Young Georgia Authors.

100% of students at Sardis Enrichment School completed Type I Enrichment activities while 40% completed Type II and 25% completed Type III activities.

In addition to academic improvement Sardis Enrichment School also improved in other areas as well. Sardis won a Bronze Award in The Healthier Generation; a Gold Award in The Governor's SHAPE program and won the Hall County World Wide Day of Play.

Due to the gains that Sardis Enrichment School made the CCRPI score increased from 60.0 to 76.6 this past year. This was the highest gain made by any school in the Hall County School System during the past year.

Even with the gains that Sardis Enrichment School has made there is still a need and a desire to be even better especially in the areas of Science and Social Studies. The continued focus to better in Math and Reading is also a top priority.
Additional Information

Provide any additional information you would like to share with the public and community that were not prompted in the previous sections.

During the 2014/15 school year Sardis Enrichment School will be moving from being a Charter School to a Program of Choice School. Sardis Enrichment School will continue to use the Renzulli Schoolwide Enrichment Model as its basis for instruction.
Self Assessment
Introduction

AdvancED's Self Assessment (SA) diagnostic is based on the AdvancED Standards of Quality, which serves as the foundation of the accreditation and continuous improvement process. The SA is a valuable tool for collaboratively engaging staff members and stakeholders in purposeful, honest dialogue and reflection to assess the institution's adherence to the Standards, and guide its continuous improvement efforts. The SA includes the institution's self-ratings of and the evidence cited for each of the indicators, comments that explain the indicator's ratings and an overall narrative for each Standard. The results of the SA are reviewed by the External Review Team as one essential component of the preparation process for the institution's External Review.
Standard 1: Purpose and Direction

The school maintains and communicates a purpose and direction that commit to high expectations for learning as well as shared values and beliefs about teaching and learning.

Overall Rating: 2.33

| 1.2       | The school's leadership and staff commit to a culture that is based on shared values and beliefs about teaching and learning and supports challenging, equitable educational programs and learning experiences for all students that include achievement of learning, thinking, and life skills. | Commitment to shared values and beliefs about teaching and learning is sometimes evident in documentation. This commitment is sometimes reflected in communication among leaders and most staff. Some challenging educational programs and equitable learning experiences are implemented so that all students achieve some degree of learning, thinking, and life skills. Evidence indicates some commitment to instructional practices that include active student engagement, a focus on depth of understanding, and the application of knowledge and skills. School leadership maintains high expectations for professional practice. | •Agendas and/or minutes that reference a commitment to the components of the school's statement of purpose  
•Survey results  
•The school's statement of purpose | Level 2 |
Reflect upon your responses to each of the indicators and performance levels by considering and responding to the following questions when drafting your narrative response. Use language from the performance level descriptions to guide your writing. Cite sources of evidence External Review team members may be interested in reviewing.

As a new charter in 2009, Sardis Enrichment School was seeking ways to meet the needs of students through providing enrichment for all students. During this time, the school experienced a complete school leadership change, a 21% change in certified staff (through a large number of retirements), and transitioned from a Charter School to a Program of Choice. In all of this change, the focus and vision of the school was only fortified and clarified. The decision to transition to a program of choice school was made only after extensive discussion and feedback from all stakeholders through parent meetings (governing board, special parent meetings, and PTO), student feedback, staff meetings, Leadership team meeting, and school board presentations. More emphasis will be placed on maintaining a profile with data on student and school performance which is shared with stakeholders on a regular basis.

| 1.3       | The school's leadership implements a continuous improvement process that provides clear direction for improving conditions that support student learning. | School leaders implement a continuous improvement process for improving student learning and the conditions that support learning. Some stakeholder groups are engaged in the process. School personnel maintain a profile with data on student and school performance. The profile contains data used to identify goals for the improvement of achievement and instruction that are aligned with the school's purpose. The process includes action planning that identifies measurable objectives, strategies, activities, resources, and timelines for achieving improvement goals. Most interventions and strategies are implemented with fidelity. Some documentation that the process yields improved student achievement and instruction is available. | •Survey results  
•The school data profile  
•Agenda, minutes from continuous improvement planning meetings  
•The school continuous improvement plan | Level 2 |
### Standard 2: Governance and Leadership

The school operates under governance and leadership that promote and support student performance and school effectiveness.

| 2.1       | The governing body establishes policies and supports practices that ensure effective administration of the school. | Policies and practices support the school's purpose and direction and the effective operation of the school. Policies and practices promote effective instruction and assessment that produce equitable and challenging learning experiences for all students. There are policies and practices regarding professional growth of all staff. Policies and practices provide requirements, direction for, and oversight of fiscal management. | • Student handbooks  
• Governing body policies, procedures, and practices  
• School handbooks | Level 3 |
| 2.2       | The governing body operates responsibly and functions effectively. | The governing body ensures that its decisions and actions are in accordance with defined roles and responsibilities, are ethical, and free of conflict of interest. Governing body members participate in professional development regarding the roles and responsibilities of the governing body and its individual members. The governing body complies with all policies, procedures, laws, and regulations. | • Governing body minutes relating to training  
• Communications about program regulations | Level 2 |
| 2.3       | The governing body ensures that the school leadership has the autonomy to meet goals for achievement and instruction and to manage day-to-day operations effectively. | The governing body generally protects, supports, and respects the autonomy of school leadership to accomplish goals for improvement in student learning and instruction and to manage day-to-day operations of the school. The governing body usually maintains a distinction between its roles and responsibilities and those of school leadership. | • Stakeholder input and feedback  
• Communications regarding board actions  
• Agendas and minutes of meetings | Level 2 |
| 2.4       | Leadership and staff foster a culture consistent with the school's purpose and direction. | Leaders and staff align their decisions and actions toward continuous improvement to achieve the school's purpose. They expect all students to be held to high standards in all courses of study. All leaders and staff are collectively accountable for student learning. School leaders support innovation, collaboration, shared leadership, and professional growth. The culture is characterized by collaboration and a sense of community. | • Examples of collaboration and shared leadership  
• Survey results  
• Examples of decisions aligned with the school's statement of purpose | Level 3 |
Reflect upon your responses to each of the indicators and performance levels by considering and responding to the following questions when drafting your narrative response. Use language from the performance level descriptions to guide your writing. Cite sources of evidence External Review team members may be interested in reviewing.

In the area of Governance and Leadership, Sardis has encountered a great deal of alteration. School leadership—principal, assistant principal, counselor—are all new to the school. The leadership team has rotated members due to the influx of new staff, and the school's instructional coach position was cut by the county. In addition, the school council (formerly governing board) has experienced a complete turnover in members and leadership. Throughout the change, communication has been a strength; however, documentation has not. Little records were left from the previous administration, so in-depth historical data is difficult to obtain. We plan to continue to communicate openly with all stakeholders, and to maintain better documentation of this process in the future.

Reflect upon your responses to each of the indicators and performance levels by considering and responding to the following questions when drafting your narrative response. Use language from the performance level descriptions to guide your writing. Cite sources of evidence External Review team members may be interested in reviewing.

Sardis Enrichment School is a part of the Hall County School District, and we follow the county's curriculum maps, pre and post unit assessments, and unit plans while working to meet the needs of our students. We expound upon the work of the county, however, by providing enrichment for all our students through our afternoon enrichment blocks and our cluster classes (based on student interest). We are continually assessing and revamping both of these enrichment opportunities. We have begun to implement additional opportunities for professional learning for our teachers and will continue along this path.

Reflect upon your responses to each of the indicators and performance levels by considering and responding to the following questions when drafting your narrative response. Use language from the performance level descriptions to guide your writing. Cite sources of evidence External Review team members may be interested in reviewing.

Sardis has additional resources through its PTO to enhance our enrichment component. One good example of this would be the creation/development of our Science Lab. Even though several of these indicators are controlled by the district, we will communicate to our stakeholders in a more effective way about the processes.
### Standard 5: Using Results for Continuous Improvement

The school implements a comprehensive assessment system that generates a range of data about student learning and school effectiveness and uses the results to guide continuous improvement.

Stakeholder Feedback Diagnostic
Introduction

The Stakeholder Feedback Diagnostic is designed to analyze the institution's survey results in terms of areas of achievement and areas that need improvement. Further, the diagnostic is essential to the accreditation and continuous improvement processes in that it provides the institution with a comprehensive view of the aggregate scores of the surveys administered, and the actual total of respondents for each survey type to derive a single score for this diagnostic. The performance level score computed at the completion of the diagnostic is used to broaden and enhance the external review team's understanding of the stakeholder's perceptions of the institution; the diagnostic should be used in the same manner by the institution as it engages in improvement planning.

<tr>
<th>Statement or Question</th>
<th>Response</th>
<th>Rating</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Questionnaire Administration</td>
<td>Few or no required AdvancED questionnaires were used by the institution. The minimum response rate was not met (parent questionnaire: less than 20%, student questionnaire(s): less than 40%, staff questionnaire: less than 60%). Questionnaires were administered with no fidelity to the administrative procedures. The participants to whom these questionnaires were administered did not represent the populations served by the institution. Appropriate accommodations were not provided for participants.</td>
<td>Level 1</td>
</tr>
<tr>
<td>2. Stakeholder Feedback Results and Analysis</td>
<td>All questionnaires had an average item value of 3.20 or above (on a 5.0 scale). Results of stakeholder feedback collected by the institution were acceptably analyzed and presented with reasonable clarity.</td>
<td>Level 3</td>
</tr>
</tbody>
</table>
Areas of Notable Achievement

Which area(s) indicate the overall highest level of satisfaction or approval?

On the student survey, Standard 1 is indicated with the highest level of satisfaction. On the parent survey, Standard 4 had the highest approval rating, but all standards were very highly rated in the range of 3.87 to 4.1. Staff survey results show Standard 2 being the highest. The scores for the staff survey ranged from 3.9 to 4.4.

Which area(s) show a trend toward increasing stakeholder satisfaction or approval?

Our survey results show high levels of satisfaction from all stakeholders. The range of scores (from all three survey groups) fell above 4.0 on the 5 point scale, which places us in the level 3 category.

Which of the above reported findings are consistent with findings from other stakeholder feedback sources?

Verbal feedback from stakeholders, both informal as well as in formal group/meeting settings, are consistent with the high survey results from all three stakeholder groups which were surveyed.
Areas in Need of Improvement

Which area(s) indicate the overall lowest level of satisfaction or approval?

For the student survey, Standard 5 was the area for greatest growth. For the parent survey, Standard 1 was the lowest. Standard 3 for the teacher survey showed as an area for improvement. We feel that this standard was lowest because of the assessment component to that standard. It should be noted, however, that although these are listed as our lowest areas, none are significantly below level.

Which area(s) show a trend toward decreasing stakeholder satisfaction or approval?

No noticeable trend exists across surveys from our three primary stakeholder groups (parents, students, and staff). After developing consensus, a need definitely exists in improving our assessment practices and utilizing those results for continuous improvement.

What are the implications for these stakeholder perceptions?

It does not appear--based on our survey results--that any negative perceptions exist. However, we recognize that our school has areas in which we can improve, as evidenced by our self-assessment consensus.

Which of the above reported findings are consistent with findings from other stakeholder feedback sources?

Based on results from various stakeholder feedback sources, our targeted area for improvement involves using assessment results for continuous improvement.

Evaluative Criteria and Rubrics

Section Score 2
Student Performance Diagnostic
The Student Performance Diagnostic provides an institution with a process to report summative student assessments. This diagnostic is significant to the accreditation and continuous improvement process as it serves as a resource for schools to view content area assessment results required by the state, district, or other entities, determine the quality and reliability of the given assessments, and show the alignment of the assessments to the school's curriculum. The performance level computed at the completion of the diagnostic is used by the external review team as a comprehensive report to understand fully the institution's assessment program; the diagnostic should be used in the same manner by the institution as it engages in improvement planning.

<th>Statement or Question</th>
<th>Response</th>
<th>Rating</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Assessment Quality</td>
<td>The array of assessment devices used by the institution to determine students' performances is sufficiently aligned so that valid inferences can be reached regarding students' status with respect to the majority of those curricular aims regarded as high-priority instructional targets. The documentation provided in support of this alignment is relatively persuasive. Most of the assessments used are accompanied by evidence demonstrating that they satisfy accepted technical requirements.</td>
<td>Level 3</td>
</tr>
<tr>
<td>2. Test Administration</td>
<td>Most of the assessments used by the institution to determine students' performances have been administered with reasonable fidelity to the administrative procedures appropriate for each assessment. In most instances, the students to whom these assessments were administered are essentially representative of the students served by the institution. Appropriate accommodations have been provided for most assessments so that valid inferences can be made about most students' status with respect to most of the institution's targeted curricular outcomes.</td>
<td>Level 3</td>
</tr>
<tr>
<td>3. Quality of Learning</td>
<td>Evidence of student learning promoted by the institution is acceptably analyzed and presented with reasonable clarity. In comparison to institutions functioning in a similar educational context, students' status, improvement, and/or growth evidence indicates that the level of student learning is at or above what would otherwise be expected.</td>
<td>Level 3</td>
</tr>
<tr>
<td>4. Equity of Learning</td>
<td>Evidence of student learning indicates achievement gaps exist among subpopulations of students, and these achievement gaps demonstrate a modest decline.</td>
<td>Level 2</td>
</tr>
</tbody>
</table>
Areas of Notable Achievement

Which area(s) are above the expected levels of performance?

The Special Education subgroup at Sardis has great percentages meets/exceeds on the state test, the CRCT. In addition, they have also shown great growth. On the Georgia Alternative Assessment during the 2013-14 school year, we experienced a 100% percent pass rate.

Describe the area(s) that show a positive trend in performance.

During the 2013-14 school year, Sardis Enrichment School experienced significant growth in the area of writing as evidenced by the state 5th grade writing test. Since 2011-12 school year, Sardis has increased in 14 out of 15 CRCT subtests in grades 3-5. We have achieved several Health Awards through the Alliance for a Healthier Generation.

Which area(s) indicate the overall highest performance?

Reading scores in grades 3-5 on the CRCT are Sardis's highest performance levels. Language Arts is our second highest area. On the 2013-14 5th grade Writing Test, Sardis had the 3rd highest meets/exceeds percentage in the County, which was higher than the system, state, and RESA averages.

Which subgroup(s) show a trend toward increasing performance?

Our SWD populations shows positive trends in performance.

Between which subgroups is the achievement gap closing?

Sardis has displayed a positive trend in numerous areas, especially in math scores. For example, 3rd grade math scores in the 2009-10 school year were 70.4% as opposed to 83.2% in the 2013-14. Fourth grade scores during that same span of time increased from 70.6% to 80.9%. And 5th grade math scores went from 78.5% to 86.5%. The school did not make Adequate Yearly Progress in the 2009-10 school year in the area of math, but the scores have markedly increased schoolwide since that time.

All subgroups (minus ELL) report as average to above average growth. The SWD subgroup is our subgroup with the greatest growth with a 68% median growth percentile.

Which of the above reported findings are consistent with findings from other data sources?
In looking at other schools in our county with similar demographics, our scores are appropriate.
Areas in Need of Improvement

Which area(s) are below the expected levels of performance?

The scores of our ELL subgroup are below their growth target in Reading and English Language Arts. They experienced low achievement (but median growth) in the area of Science. In math, this subgroup experienced average growth, but their achievement level was the lowest of all subgroups represented at Sardis.

Describe the area(s) that show a negative trend in performance.

The area of 5th grade Reading has slightly decreased in the past 3 years, going from 94.4% meets/exceeds to 92.9%. All other areas are showing varying levels of growth.

Which area(s) indicate the overall lowest performance?

The ELL subgroup in the areas of Reading and Science are our areas of lowest performance.

Which subgroup(s) show a trend toward decreasing performance?

Our ELL subgroup shows a trend of increasingly stagnant performance. They have consistently experienced low growth in all areas over the past 5 years.

Between which subgroups is the achievement gap becoming greater?

No outliers appear to exist when examining the data over the past 5 years.

Which of the above reported findings are consistent with findings from other data sources?

The scores of our English Language Learners on the CRCT were not consistent with data from the ACCESS test for English proficiency. Sardis had 31 ELL students score high enough on the ACCESS to exit the ESOL program at the end of the 2013-14 school year.

AdvancED Assurances
Introduction

AdvancED Policies and Procedures outline certain requirements that all institutions must meet in order to be in compliance. Institutions are required to verify whether or not they meet these requirements by answering a series of questions and in some cases, attaching evidence for review.

By responding to the questions in ASSIST and attaching evidence when required, the institution has verified whether it meets or does not meet each of the Assurances for Accreditation.
