Executive Summary
Introduction

Every school has its own story to tell. The context in which teaching and learning takes place influences the processes and procedures by which the school makes decisions around curriculum, instruction, and assessment. The context also impacts the way a school stays faithful to its vision. Many factors contribute to the overall narrative such as an identification of stakeholders, a description of stakeholder engagement, the trends and issues affecting the school, and the kinds of programs and services that a school implements to support student learning.

The purpose of the Executive Summary (ES) is to provide a school with an opportunity to describe in narrative form the strengths and challenges it encounters. By doing so, the public and members of the school community will have a more complete picture of how the school perceives itself and the process of self-reflection for continuous improvement. This summary is structured for the school to reflect on how it provides teaching and learning on a day to day basis.
Description of the School

Describe the school’s size, community/communities, location, and changes it has experienced in the last three years. Include demographic information about the students, staff, and community at large. What unique features and challenges are associated with the community/communities the school serves?

Sugar Hill Elementary School is located in eastern Hall County. The school serves approximately 740 students, and 92% receive free and reduced lunch. Seventy-five percent of our students are Hispanic, 15% are Caucasian, 6% are African American, 2% are multi-racial. Fifty-five percent of our students are English Language Learners. By tradition, the school environment is a close knit family oriented community. As a result, the children are loving and respectful. Students watch out for younger siblings and treat each other with kindness. Even though our community is one of poverty, the families are willing to give what they have whether it is to cook for an event or to donate canned goods for a food drive as they can empathize with others in need. The school offers free morning tutoring and free after school tutoring with transportation through the Sugar Hill Acceleration Academy (SAA). Students also have before and after school opportunities to participate in activities which offer enrichment such as the Drama Club, the Running Club, the Art Club, Girl Scouts, Boy Scouts, YMCA, Techno Kids, the Knitting Club, and Odyssey of the Mind. Parents attend events by the hundreds such as Curriculum Night, Field Day, Parent Teacher Organization Performances, Honors Ceremonies, Talent Night, and the Valentine Dance. Teachers are creative and seek out a variety of "outside-the-box" resources to support our students. Our strengths and accomplishments include the creation of a loving, caring environment for children especially ones with special circumstances. Communication between staff and administration is ongoing, the teachers are included in many major decisions, and input is encouraged through the Leadership Team. At Sugar Hill, we truly operate as a team for the benefit of the children.
School's Purpose

Provide the school's purpose statement and ancillary content such as mission, vision, values, and/or beliefs. Describe how the school embodies its purpose through its program offerings and expectations for students.

The school mission statement for Sugar Hill Elementary is "What we believe, we can achieve!" We truly operate under this mission statement. Even though we serve a diverse, high-poverty population of students, we make no excuses. If we instill the belief in our students that they can learn and can succeed, then they can, they will, and they have succeeded according to standardized tests. We make data-driven decisions to provide an appropriate educational setting for each child. Each grade level monitors monthly progress based on assessment data gathered in each classroom through the implementation of running records, end of unit formative assessments, informal assessments, teacher-student conferencing, and teacher observation. The data is collected, collaboratively analyzed, and is summarized in our data room. We use these outcomes to guide the formation of the school's school improvement plan and professional learning plan, which in return improves classroom instruction. Sugar Hill Elementary has fully implemented standards-based classrooms to increase competency and rigor by designing common assessments in accordance with curriculum maps which include higher order thinking, technology integration, looking at student work, differentiated instruction, and teacher commentary.

Our school vision statement is "Sugar Hill Elementary School will be a safe and nurturing learning environment for children. With access to various learning experiences, students will achieve their individual capabilities." Implementing this vision means making opportunities available to our students that they might not otherwise have access to. Some examples include, field trips to places like the Atlanta Aquarium, access to large screen technology and student devices in every classroom, and arrangements for free dental care. The vision includes exposure to a progressive and integrated curriculum that is research-based, requires deeper thinking, and is based on national standards. Finally, the vision includes the creation of an environment that is free from physical and emotional threats so that individuals can learn in an engaging, caring place of which they will receive an equal opportunity to achieve self-fulfillment. The walls are decorated with exciting visual displays of student work, photographs of students, and other student accomplishments. Supplies and resources are managed carefully so that adequate materials are available for students and teachers and opportunities for the community to engage in the learning setting are plentiful. Lower student to teacher ratios are prevalent due to careful use of Title I funds to allow the addition of a co-teacher to many math, science, and reading segments. Teachers, administrators, parents and community partners are collaborative through organizations such as the School Council, Parent Teacher Organization, and the Wellness Team.
Notable Achievements and Areas of Improvement

Describe the school's notable achievements and areas of improvement in the last three years. Additionally, describe areas for improvement that the school is striving to achieve in the next three years.

Due to the hard work and collaboration of the staff and community, Sugar Hill Elementary has reached several milestones in the last five to seven years. We have active Partners in Education where as we had none five years ago. Six years ago we were in a "Needs Improvement" status category. We flipped our math scores from 25% meeting or exceeding the state criterion test six years ago to 86% meeting or exceeding in the spring of 2012. Forty-six percent of all students tested met the benchmark in Reading on the CRCT in 2007 whereas 90% of all students tested met or exceeded the benchmark in Reading on the CRCT in 2012; a 44 percentage point gain.

As a result of the noteworthy improvements that we have made over the last five years in achievement, Sugar Hill Elementary School was named a 2013 National Blue Ribbon School this past October. Lindsey Rhodes, one of our Kindergarten teachers, was named a Georgia Innovative Teacher in February of 2014. In addition, we have implemented a school-wide Wellness Campaign. Due to our efforts to encourage students eat healthy foods and to exercise we earned the Bronze Award in 2013 from the Healthier Alliance Group, and we earned the Governor's SHAPE Gold Award in 2012 and 2013. In addition, we were named a Title I Distinguished school in 2010. Most recently, we received recognition in the local paper, The Times, in April of 2014 for growth according to CCRPI scores.

By reaching out to the parents and community for input, we have increased community involvement exponentially. For example, only three parents attended the March PTO meeting in 2007 whereas 300 parents attended the March PTO meeting of 2014 where 2nd and 3rd grade students performed and showcased multi-cultural learning. We have achieved stabilization of leadership and school improvement and have moved past the difficulties of having three different principals in the years of 2007, 2008, and 2009. Discipline referrals have decreased, administrators spend more time in classrooms supporting instruction, and teachers have been empowered to influence change.

Several of our teachers have also participated on county level and state level committees to develop SLO (Student Learning Objective) assessments which correlate to the Common Core Georgia Performance Standards and the state’s new accountability system called the Career and College Readiness Performance Index (CCRPI). Two of our teachers, Elaine Pulliam and Bambi Willard, have presented at national ESOL (English as a Second Language) conferences on separate years. In addition, our model for Response to Intervention (RTI) has also been recognized at the county level. Our assistant principal was recently asked to present our method for managing minutes, interventions, data, and student files at a county level meeting where all other assistant principals were in attendance.

Finally, Sugar Hill Elementary has been awarded several grants. Cargill, a local corporation, awarded the school $5000 in August of 2013 to begin to implement STEM. Dollar General also awarded us a $5000 grant to promote literacy. Due to these grants, we have been able to add technology and resources to provide even more enriching experiences for our students.
Additional Information

Provide any additional information you would like to share with the public and community that were not prompted in the previous sections.

At Sugar Hill Elementary, we actively engage stakeholders through planned events with our parents, our school nurse, our Bilingual Parent Liaison, our counselor, and our community partners. Many engaging family events are available to our families each year. In September, we offer Curriculum night where we serve a free meal to the entire family through community and partner donations so that parents can visit classrooms to receive information regarding what the students will be learning for the year. We offer festivals and events such as Family Fitness Day, the Spring Fling, and the Fall Festival. These events bring the school and community together.

Our school is fortunate to have a full-time school nurse. She completes student hearing, vision, and dental screenings in house. She has a strong relationship with parents/families and is greatly trusted within the community. She arranges free dental care for our neediest families through programs such as "Help a Child Smile" in which she brings a dental team to the school. For vision support, the nurse also coordinates with "Hometown Lens Crafters" which is a vision program that provides free vision screening and glasses.

Sugar Hill Elementary is also fortunate to have a full-time Parent Liaison. She has a dynamic personality and is trusted and loved by the community. She organizes monthly bilingual Parent Outreach Meetings where she addresses topics of parent choice such as how to help your child with homework and how to help your child to stay out of gangs.

In addition, Sugar Hill Elementary School has a devoted counselor who goes the extra mile to help our families. She arranges a “Backpack of Love” program which she coordinates through a local church. It gives our neediest families nonperishable food items every Friday so that the children have good food to eat over the weekend. She arranges holiday help in December through "We Care", the Salvation Army, the Rotary Club, and local churches so that our neediest children receive new shoes, clothes and even a few toys for Christmas. She coordinates a mentoring program for students, a Career Day for students in which community business come in to share information about their jobs, and she provides classroom guidance lessons about topics such as “Speak up, Be Safe.”

In conclusion, Sugar Hill Elementary also has an active relationship with many community partner organizations. Our Partners include Dollar General, McDonalds, Skate Country, and the Sunset Rotary Club. These organizations provide curriculum resources to the school such as school supplies and these organizations allow students, families and school staff to have interaction outside the school setting to develop close relationships. Our local police department provides the ADVANCE- "Drug Free" Program to our students. Our local 4-H Team and Master Gardener's members volunteer their time to teach students about agriculture and other regional topics of interest.
Self Assessment
Introduction

AdvancED's Self Assessment (SA) diagnostic is based on the AdvancED Standards of Quality, which serves as the foundation of the accreditation and continuous improvement process. The SA is a valuable tool for collaboratively engaging staff members and stakeholders in purposeful, honest dialogue and reflection to assess the institution's adherence to the Standards, and guide its continuous improvement efforts. The SA includes the institution's self-ratings of and the evidence cited for each of the indicators, comments that explain the indicator's ratings and an overall narrative for each Standard. The results of the SA are reviewed by the External Review Team as one essential component of the preparation process for the institution's External Review.
Standard 1: Purpose and Direction

The school maintains and communicates a purpose and direction that commit to high expectations for learning as well as shared values and beliefs about teaching and learning.

Overall Rating: 3.0

<table>
<thead>
<tr>
<th>Indicator</th>
<th>Statement or Question</th>
<th>Response</th>

</table>
| 1.1       | The school engages in a systematic, inclusive, and comprehensive process to review, revise, and communicate a school purpose for student success. | The school's process for review, revision, and communication of the purpose statement is documented. The process is formalized and implemented on a regular schedule. The process includes participation by representatives from all stakeholder groups. The purpose statement focuses on student success. | • Survey results  
• Examples of communications to stakeholders about the school's purpose (i.e. website, newsletters, annual report, student handbook)  
• Purpose statements - past and present | Level 3 |

<table>

</table>
| 1.2       | The school's leadership and staff commit to a culture that is based on shared values and beliefs about teaching and learning and supports challenging, equitable educational programs and learning experiences for all students that include achievement of learning, thinking, and life skills. | Commitment to shared values and beliefs about teaching and learning is evident in documentation and decision making. This commitment is regularly reflected in communication among leaders and staff. Challenging educational programs and equitable learning experiences are implemented so that all students achieve learning, thinking, and life skills necessary for success. Evidence indicates a commitment to instructional practices that include active student engagement, a focus on depth of understanding, and the application of knowledge and skills. School leadership and staff share high expectations for professional practice. | • Agendas and/or minutes that reference a commitment to the components of the school's statement of purpose  
• Survey results  
• The school's statement of purpose | Level 3 |
Reflect upon your responses to each of the indicators and performance levels by considering and responding to the following questions when drafting your narrative response. Use language from the performance level descriptions to guide your writing. Cite sources of evidence External Review team members may be interested in reviewing.

Strengths:
Our purpose statement is student-related. Leadership provides minutes from leadership and school council minutes related to the development of the schools purpose. Our mission statement is shared daily on morning announcements. Leadership implements and requires the use of a documented continuous improvement process for improving student learning and the conditions that support learning. All stakeholder groups are engaged in the process. School personnel maintain a profile with current and comprehensive data on student and school performance. The profile contains analyses of data used to identify goals for the improvement of achievement and instruction that are aligned with the school's purpose. Improvement goals have measurable performance targets. The process includes action planning that identifies measurable objectives, strategies, activities, resources, and timelines for achieving improvement goals. School leaders hold all school personnel accountable for and evaluate the overall quality of the implementation of all interventions and strategies. The process is reviewed and evaluated. Documentation that the process yields improved student achievement and instruction is available and communicated to stakeholders. We provide real world applications, science projects, and units with DOK levels across the curriculum integrated with essential questions. We provide STEM activities through Health/Enrichment, as well as the classrooms, for remediation/enrichment for students. School leadership holds us accountable for high expectations. Our leadership continually improves support for student learning through leadership meeting and weekly grade level curriculum meetings minutes. Our leadership creates a two-way communication between faculty and staff members through the use of our weekly Sugar Stick (weekly faculty newsletter) and email. Leadership provides a two way communication between stakeholders through Monday folders, PTO letters, Curriculum Night, School council, surveys, and parent outreach meetings.

Weaknesses:
We still need to develop a more formal process for revising the school's purpose and involve parents. We do not have a student handbook stating our school purpose. We need to do more peer observations/awareness walks to view other teaching methods across the grade levels.

Next Steps:
We need to add more parent input into our purpose statement. We need a more formal process for revising the school's purpose. We could
create a student handbook stating our school purpose. We could perform more peer observations/awareness walks throughout the building to hold each other accountable for overall quality of implementation of interventions and strategies. We could send RTI T2 minutes to parents. Survey results should be shared with faculty/staff.
Standard 2: Governance and Leadership

The school operates under governance and leadership that promote and support student performance and school effectiveness.

Overall Rating: 3.33

<table>
<thead>
<tr>
<th>Indicator</th>
<th>Statement or Question</th>
<th>Response</th>
<th>Evidence</th>
<th>Rating</th>
</tr>
</thead>
</table>
| 2.1       | The governing body establishes policies and supports practices that ensure effective administration of the school. | Policies and practices support the school's purpose and direction and the effective operation of the school. Policies and practices promote effective instruction and assessment that produce equitable and challenging learning experiences for all students. There are policies and practices regarding professional growth of all staff. Policies and practices provide requirements, direction for, and oversight of fiscal management. | • Staff handbooks  
• Communications to stakeholder about policy revisions | Level 3 |
| 2.2       | The governing body operates responsibly and functions effectively. | The governing body has a process to ensure that its decisions and actions are in accordance with defined roles and responsibilities, a code of ethics, and free of conflict of interest. Governing body members participate in a systematic, formal professional development process regarding the roles and responsibilities of the governing body and its individual members. The governing body complies with all policies, procedures, laws, and regulations and functions as a cohesive unit. | • Governing body minutes relating to training  
• Communication plan to inform all staff on code of ethics, responsibilities, conflict of interest | Level 3 |
| 2.3       | The governing body ensures that the school leadership has the autonomy to meet goals for achievement and instruction and to manage day-to-day operations effectively. | The governing body consistently protects, supports, and respects the autonomy of school leadership to accomplish goals for achievement and instruction and to manage day-to-day operations of the school. The governing body maintains a clear distinction between its roles and responsibilities and those of school leadership. | • School improvement plan developed by the school  
• Stakeholder input and feedback  
• Maintenance of consistent academic oversight, planning, and resource allocation  
• Agendas and minutes of meetings | Level 4 |
Leadership and staff foster a culture consistent with the school's purpose and direction. Leaders and staff align their decisions and actions toward continuous improvement to achieve the school's purpose. They expect all students to be held to high standards in all courses of study. All leaders and staff are collectively accountable for student learning. School leaders support innovation, collaboration, shared leadership, and professional growth. The culture is characterized by collaboration and a sense of community.

Leadership engages stakeholders effectively in support of the school's purpose and direction. Leaders consistently communicate effectively with appropriate and varied representatives from stakeholder groups, provide opportunities for stakeholders to shape decisions, solicit feedback and respond to stakeholders, work collaboratively on school improvement efforts, and provide and support meaningful leadership roles for stakeholders. School leaders' proactive and persistent efforts result in measurable, active stakeholder participation; positive engagement in the school; a strong sense of community; and ownership.

Leadership and staff supervision and evaluation processes result in improved professional practice and student success. The focus of the criteria and processes of supervision and evaluation is improving professional practice and improving student success. Supervision and evaluation processes are regularly implemented. The results of the supervision and evaluation processes are used to monitor and effectively adjust professional practice and improve student learning.

Reflect upon your responses to each of the indicators and performance levels by considering and responding to the following questions when drafting your narrative response. Use language from the performance level descriptions to guide your writing. Cite sources of evidence External Review team members may be interested in reviewing.

Strengths:
Leadership ensures that the professional learning opportunities are provided to all teachers to meet goals for achievement. For example, we have a professional learning menu of after school opportunities on site. As a school, we continue to look for ways to improve instruction and further our professional knowledge.

Administration has high expectations for all teachers and holds teachers accountable by conducting formal and informal observation and year round walk-throughs. Leadership utilizes the data room, TKES evaluations, and walk-throughs to monitor student success and to ensure that professional practices are in place. Student success is also supervised through communication with grade chairs and grade level minutes. Leadership engages stakeholders through school council, parent outreach meetings, PTO, and partners in education. Our school leaders share school budget information with teachers and ask for teacher input when making instructional purchases.
Weaknesses:
We do not reach out to the community through social media as much as we would like to. We have a school website that we update once every couple of months, but that is not enough. We do not provide parents and students with a student/parent handbook to communicate school policies and practices.

Next Steps:
We need to communicate with more of the community and involve stakeholders by setting up and using social media (i.e. Twitter, Facebook).
We need to create a digital student and parent handbook and have teachers add them to their teacher web page. Handbooks should be offered in both English and Spanish.
## Standard 3: Teaching and Assessing for Learning

The school's curriculum, instructional design, and assessment practices guide and ensure teacher effectiveness and student learning.

Overall Rating: 2.75

<table>
<thead>
<tr>
<th>Indicator</th>
<th>Statement or Question</th>
<th>Response</th>
<th>Evidence</th>
<th>Rating</th>

</thead>
</table>
| 3.4       | School leaders monitor and support the improvement of instructional practices of teachers to ensure student success. | School leaders formally and consistently monitor instructional practices through supervision and evaluation procedures to ensure that they 1) are aligned with the school’s values and beliefs about teaching and learning, 2) are teaching the approved curriculum, 3) are directly engaged with all students in the oversight of their learning, and 4) use content-specific standards of professional practice. | •Peer or mentoring opportunities and interactions  
•Administrative classroom observation protocols and logs | Level 3 |
| 3.5       | Teachers participate in collaborative learning communities to improve instruction and student learning. | All members of the school staff participate in collaborative learning communities that meet both informally and formally. Collaboration often occurs across grade levels and content areas. Staff members have been trained to implement a formal process that promotes discussion about student learning. Learning from, using, and discussing the results of inquiry practices such as action research, the examination of student work, reflection, study teams, and peer coaching occur regularly among most school personnel. School personnel indicate that collaboration causes improvement results in instructional practice and student performance. | •Agendas and minutes of collaborative learning committees  
•Calendar/schedule of learning community meetings  
•Survey results | Level 3 |
| 3.6       | Teachers implement the school’s instructional process in support of student learning. | All teachers use an instructional process that informs students of learning expectations and standards of performance. Exemplars are often provided to guide and inform students. The process includes multiple measures, including formative assessments, to inform the ongoing modification of instruction and provide data for possible curriculum revision. The process provides students with specific and timely feedback about their learning. | •Examples of assessments that prompted modification in instruction | Level 3 |
| 3.7       | Mentoring, coaching, and induction programs support instructional improvement consistent with the school’s values and beliefs about teaching and learning. | School personnel are engaged in mentoring, coaching, and induction programs that are consistent with the school’s values and beliefs about teaching, learning, and the conditions that support learning. These programs set expectations for all school personnel and include measures of performance. | •Records of meetings and walk thrus/feedback sessions  
•Professional learning calendar with activities for instructional support of new staff  
•Descriptions and schedules of mentoring, coaching, and induction programs with references to school beliefs and values about teaching and learning | Level 3 |
### Indicator 3.8
The school engages families in meaningful ways in their children's education and keeps them informed of their children's learning progress.

**Response**
Programs that engage families in their children's education are available. School personnel provide information about children's learning.

**Evidence**
- Survey results
- Parental/family/caregiver involvement plan including activities, timeframes, and evaluation process

**Rating**
Level 2

### Indicator 3.9
The school has a formal structure whereby each student is well known by at least one adult advocate in the school who supports that student's educational experience.

**Response**
School personnel participate in a structure that gives them long-term interaction with individual students, allowing them to build strong relationships over time with the student. All students may participate in the structure. The structure allows the school employee to gain insight into and serve as an advocate for the student's needs regarding learning skills, thinking skills, and life skills.

**Evidence**
- Curriculum and activities of formal adult advocate structure

**Rating**
Level 3

### Indicator 3.10
Grading and reporting are based on clearly defined criteria that represent the attainment of content knowledge and skills and are consistent across grade levels and courses.

**Response**
Teachers use common grading and reporting policies, processes, and procedures based on clearly defined criteria that represent each student's attainment of content knowledge and skills. These policies, processes, and procedures are implemented consistently across grade levels and courses. Stakeholders are aware of the policies, processes, and procedures. The policies, processes, and procedures are regularly evaluated.

**Evidence**
- Sample report cards for each grade level and for all courses
- Sample communications to stakeholders about grading and reporting

**Rating**
Level 3

### Indicator 3.11
All staff members participate in a continuous program of professional learning.

**Response**
All staff members participate in a continuous program of professional learning that is aligned with the school's purpose and direction. Professional development is based on an assessment of needs of the school. The program builds capacity among all professional and support staff. The program is systematically evaluated for effectiveness in improving instruction, student learning, and the conditions that support learning.

**Evidence**
- Survey results
- Brief explanation of alignment between professional learning and identified needs

**Rating**
Level 3
Reflect upon your responses to each of the indicators and performance levels by considering and responding to the following questions when drafting your narrative response. Use language from the performance level descriptions to guide your writing. Cite sources of evidence External Review team members may be interested in reviewing.

Strengths:

We use our Data Room to monitor the implementation of the curriculum and teachers look at student work together at grade level meetings. Leaders complete Walk throughs and formal observations. Leaders attend curriculum meetings, RTI, EIP, SPED, and ESOL meetings. Teachers collaborate about instruction during planning meetings, half day CCGPS Days, in sessions with the instructional coach, and through professional learning groups after school.

We keep track of coverage of the CCGPS, give unit assessments, SLOS, DRA, and RTI progress monitoring assessments.

Teachers are offered a professional learning menu based on interests or areas of need. We fully implement RTI Tier II and Tier III and collaborate frequently about those tiers. The following services are coordinated to support instruction: ESOL, EIP, IEPs, RTI, SEARCH. New staff is assigned mentor teachers and we have an instructional coach.

In terms of parent and family support, our parent liaison conducts parent outreach meetings concerning topics of parent interest. Our October Curriculum Night is highly attended and enjoyed by our families. Our counselor coordinates the Backpacks of Love program which provides support for families who might not have enough food over the weekend. We communicate academic progress to parents through report cards, Monday folders, contact logs, and class dojo.

Weaknesses:

We still need to improve in "providing ALL students with challenging opportunities to develop learning skills." We need to do more of the following: students assessing themselves and student use of technology to create products. We need to evaluate our parent involvement plans so that we can find more "programs to engage all parents."

Next Steps:

We would like to implement a Program of Choice for Talent and Career Awareness in the fall of 2015. This program would allow us to increase enrichment opportunities for our students through exposure to fields of practice, opportunities to participate in cluster activities by interest, and service learning projects. We also need to seek new strategies, like our science themed Curriculum Night, to increase parent involvement.
### Standard 4: Resources and Support Systems

The school has resources and provides services that support its purpose and direction to ensure success for all students.

**Overall Rating:** 3.0

Sugar Hill Elementary School

### Reflect upon your responses to each of the indicators and performance levels by considering and responding to the following questions when drafting your narrative response. Use language from the performance level descriptions to guide your writing. Cite sources of evidence External Review team members may be interested in reviewing.

### Strengths:

Our principal is strategic about hiring qualified employees. We follow a school schedule. Classes are rarely interrupted during the day.

<td>Level 3</td>
</tr>
</tbody>
</table>
Diverse needs are met by utilizing ESL, EIP, and reading intervention teachers. Students receive small group instruction many times a day.

Safety measures are in place throughout the school.

We have regular fire drills, evacuation drills, and other emergency procedures in place.

We have technology in every classroom and that technology is updated regularly when the budget allows. We have personnel available to assist students and faculty in the media center and in the computer lab.

Personal, emotional and social needs of students are met through classroom guidance classes that are implemented by our guidance counselor. Parent classes are offered on a regular basis through our parent liaison and instructional coach. Our counselor advises students and parents about various services and programs available to them in our community.

Weaknesses:

School personnel have no control over the choice of the contracted cleaning company and the quality of maintenance. The building is dirty and is not effectively or consistently cleaned.

We have different types of technology in each room. Therefore, there is little consistency in what is available from room to room due to waves of funding.

There's always the need for updates from time to time. At times, some equipment is outdated or is unusable.

It is difficult to address all of the needs of our students with one counselor. We need two counselors or a counselor and an in-house school psychologist.

Next steps:

More parental involvement would help meet the needs of students (i.e. academic needs, emotional/social needs, etc.).
Standard 5: Using Results for Continuous Improvement

The school implements a comprehensive assessment system that generates a range of data about student learning and school effectiveness and uses the results to guide continuous improvement.

Overall Rating: 2.8

Reflect upon your responses to each of the indicators and performance levels by considering and responding to the following questions when drafting your narrative response. Use language from the performance level descriptions to guide your writing. Cite sources of evidence External Review team members may be interested in reviewing.

Strengths:

Our data room is updated each month and represents an effective way to monitor each of our school improvement goals that relate to academic progress. From the data that we collect and examine, we are able to plan and justify both support for struggling learners and enrichment for excelling learners. We definitely use data to drive our instruction.

Weaknesses:

We need specific training and professional learning for support staff. Our support staff includes specials teachers and paraprofessionals. Their training opportunities are somewhat limited due to our schedules and the availability of appropriate professional learning.

Next Steps:

We need to seek out extra support for new teachers with a special emphasis on "in-class" support. "In-class" support might include modeling and co-teachers. We need to provide multiple opportunities for all staff members to observe instruction within the building. We need to visit other schools to share and observe new ideas as well.

Stakeholder Feedback Diagnostic
Introduction

The Stakeholder Feedback Diagnostic is designed to analyze the institution's survey results in terms of areas of achievement and areas that need improvement. Further, the diagnostic is essential to the accreditation and continuous improvement processes in that it provides the institution with a comprehensive view of the aggregate scores of the surveys administered, and the actual total of respondents for each survey type to derive a single score for this diagnostic. The performance level score computed at the completion of the diagnostic is used to broaden and enhance the external review team's understanding of the stakeholder's perceptions of the institution; the diagnostic should be used in the same manner by the institution as it engages in improvement planning.

Areas of Notable Achievement

Which area(s) indicate the overall highest level of satisfaction or approval?

Parent and Staff ratings for Standard 1: Purpose and Direction.

Which area(s) show a trend toward increasing stakeholder satisfaction or approval?

According to the Student, Parent, and Staff surveys, Standard 5: Continuous Improvement, is an area that is showing a trend towards increasing stakeholder satisfaction.

Which of the above reported findings are consistent with findings from other stakeholder feedback sources?

Standard 1: Purpose and Direction and Standard 5: Continuous Improvement
The findings for this standard are consistent with TKES student surveys and LKES staff surveys.
Areas in Need of Improvement

Which area(s) indicate the overall lowest level of satisfaction or approval?

The lowest area noted in the staff survey in the areas of Teaching and Assessing for Learning (Standard 3).

Which area(s) show a trend toward decreasing stakeholder satisfaction or approval?

Standard 3: Teaching and Assessing for Learning

Staff, students, and parents feel like students are taking too many assessments. Students take required "in-house" assessments such as the DRA and Unit Assessments that we use to adjust instruction. However, students also have to take multiple SLO assessments and a variety of standardized tests on top of these "in house" tests. Although the information is good to have and use to adjust instruction, many stakeholders feel that we are spending more time testing than we are instructing.

What are the implications for these stakeholder perceptions?

Stakeholders, in general, feel that students have to take too many assessments. Stakeholders feel that instructional time is lost with some of these tests.

Which of the above reported findings are consistent with findings from other stakeholder feedback sources?

These findings are consistent with TKES surveys and LKES surveys.

Student Performance Diagnostic
Introduction

The Student Performance Diagnostic provides an institution with a process to report summative student assessments. This diagnostic is significant to the accreditation and continuous improvement process as it serves as a resource for schools to view content area assessment results required by the state, district, or other entities, determine the quality and reliability of the given assessments, and show the alignment of the assessments to the school's curriculum. The performance level computed at the completion of the diagnostic is used by the external review team as a comprehensive report to understand fully the institution's assessment program; the diagnostic should be used in the same manner by the institution as it engages in improvement planning.

<tbody>
<tr>
<td>1. Assessment Quality</td>
<td>The array of assessment devices used by the institution to determine students' performances is sufficiently aligned so that valid inferences can be reached regarding students' status with respect to the majority of those curricular aims regarded as high-priority instructional targets. The documentation provided in support of this alignment is relatively persuasive. Most of the assessments used are accompanied by evidence demonstrating that they satisfy accepted technical requirements.</td>
<td>Level 3</td>
</tr>
<tr>
<td>2. Test Administration</td>
<td>Most of the assessments used by the institution to determine students' performances have been administered with reasonable fidelity to the administrative procedures appropriate for each assessment. In most instances, the students to whom these assessments were administered are essentially representative of the students served by the institution. Appropriate accommodations have been provided for most assessments so that valid inferences can be made about most students' status with respect to most of the institution's targeted curricular outcomes.</td>
<td>Level 3</td>
</tr>
<tr>
<td>3. Quality of Learning</td>
<td>Evidence of student learning promoted by the institution is acceptably analyzed and presented with reasonable clarity. In comparison to institutions functioning in a similar educational context, students' status, improvement, and/or growth evidence indicates that the level of student learning is at or above what would otherwise be expected.</td>
<td>Level 3</td>
</tr>
<tr>
<td>4. Equity of Learning</td>
<td>Evidence of student learning indicates achievement gaps exist among subpopulations of students, and these achievement gaps have noticeably declined.</td>
<td>Level 3</td>

Areas of Notable Achievement

Which area(s) are above the expected levels of performance?

3rd Grade ELA and Math % meets and exceeds on the 2014 CRCT as compared to the State percentages

4th Grade Reading, Science, Social Studies % meets and exceeds on the 2014 CRCT as compared to the State percentages

5th Grade ELA, Math, Science, and Social Studies % meets and exceeds on the 2014 CRCT as compared to the State percentages

Describe the area(s) that show a positive trend in performance.

According to the 2014 CRCT outcomes for % meets and exceeds as compared to 2013, the following areas a positive trend:

3rd Grade Math and Social Studies
4th Grade Science and Social Studies
5th Grade Math, Reading, ELA, Science and Social Studies

Which area(s) indicate the overall highest performance?

According to the 2014 CRCT outcomes for % meets and exceeds as compared to 2013, these are the areas of highest performance:

4th Grade Reading
5th Grade Math, Reading, and ELA

Which subgroup(s) show a trend toward increasing performance?

ELL students
Economically Disadvantaged Students

Between which subgroups is the achievement gap closing?

ELL and Economically Disadvantaged
Which of the above reported findings are consistent with findings from other data sources?

All these findings are consistent with data that we have collected in our data room from in house assessments. The assessments that we track are listed below.

EDMC Monthly tests - Every Day Math Counts assessments from our morning calendar time

Math Campaign monthly reports - Students in each grade level practice to gain mastery of basic math facts appropriate to their grade level. We met our goal last year of having 80% of our students at each grade master their facts.

Unit Assessments/Common Assessments for Reading, Math, and Writing.

Grade level chapter and unit tests for Science and Social Studies.

DRA Reading Levels from Fall, Winter, and Spring
Areas in Need of Improvement

Which area(s) are below the expected levels of performance?

CRCT Scores from 2014 for 3rd Grade Science (74% met/exceeded)
CRCT Scores from 2014 for 4th Grade Math (77% met/exceeded)

Describe the area(s) that show a negative trend in performance.

For the 2014 CRCT:

3rd Grade Science (74% met/exceeded)
4th Grade Math (77% met/exceeded)

Which area(s) indicate the overall lowest performance?

3rd Grade Science (74%)
4th Grade Math (77%)

Which subgroup(s) show a trend toward decreasing performance?

White Males
Students with Disabilities

Between which subgroups is the achievement gap becoming greater?

White Males
Students with Disabilities

Which of the above reported findings are consistent with findings from other data sources?

All these findings are consistent with data that we have collected in our data room from in house assessments. The assessments that we track are listed below.
EDMC Monthly tests - Every Day Math Counts assessments from our morning calendar time

AdvancED Assurances
Introduction

AdvancED Policies and Procedures outline certain requirements that all institutions must meet in order to be in compliance. Institutions are required to verify whether or not they meet these requirements by answering a series of questions and in some cases, attaching evidence for review.

By responding to the questions in ASSIST and attaching evidence when required, the institution has verified whether it meets or does not meet each of the Assurances for Accreditation.
