

## Thank You for What You Do Every Day!

Welcome to the Hall County School District Transportation Department's Learning Management System. This program is designed as professional development for employees involved in student transportation. Your Director of Transportation has developed a lesson plan which targets various subjects impacting your daily routine in transportation. The videos are brief and the test questions are not difficult. So each month simply follow the instructions below and complete the training modules in your "classroom".

Professional Development for the Professional Driver!

### Here's How to Get Started:

**Step 1: Go to** <http://hallcountysd.safepupil.com/>

#### **Step 2: Click on "Training Center"**

Call Kathy at 877-792-3866 for your username and password. Once you have UN/PW next click on "[Sign In](#)"

#### **Step 3: Click on the title of the training video you want to begin with...continue clicking the drop-downs until the video begins playing.**

Be patient, there may be a brief pause while the video loads it all depends on the speed of your internet connection. Watch the training video and be prepared to answer test questions when it is finished.

#### **Step 4: Take the Test**

The test will load after the video is finished. To successfully complete a training module an 80 or higher is necessary; otherwise, you are required to watch the video again and retake the test until you successfully complete the test with at least an 80.

There are few industries requiring such a dedication and due diligence by EVERY team member...EVERY DETAIL...EVERY MINUTE...EVERY DAY... as does the School Transportation Industry!

***Professional Development is Strength Training for the Mind!***
