

HCSD Mitigation/Closure Matrix-DRAFT ONLY 7/22

Color Key

	0-1 School-Level Cases	2-3 School-Level Cases	4+ School-Level Cases
Low Community Spread (14 Day Average of < 10 new cases per day in Hall County) (14 Day Average related to NGHS trends and capacity issues. This metric is being developed)			
Moderate Community Spread (14 Day Average of between 11 and 40 new cases per day in Hall County) (14 Day Average related to NGHS trends and capacity issues. This metric is being developed)			
High Community Spread (14 Day Average of > 40 new cases per day in Hall County) (14 Day Average related to NGHS trends and capacity issues. This metric is being developed)			
	Impacted individuals follow "Return" and "Quarantine" guidance. Enhanced mitigation measures implemented if appropriate.		
	Impacted individuals follow "Return" and "Quarantine" guidance. Enhanced mitigation measures implemented. Targeted closures if necessary.		
	Impacted individuals follow "Return" and "Quarantine" guidance. Enhanced mitigation measures implemented. Targeted, school-wide or district-wide closures if necessary.		

*Internal NGHS metric includes:

- 1) Percentage of Positive COVID tests. (<10% Green, 11-18% Yellow, 19%+ Red)
- 2) Critical Care Bed Numbers and Percentage of Capacity. (<65% Green, 65-85% Yellow, 85%+ Red)
- 3) We are working together with NGHS to have access to number of positive cases by school based upon hospital registration information
