

# COVID-19 & Kids

## *Returning to School*

### LONGSTREET CLINIC FACEBOOK LIVE

JULY 22, 2021 AT 12:30P.M.

Another school year is just around the corner. Longstreet Clinic hosts physician experts and representatives from our community's school systems to provide helpful information to families about safety precautions related to COVID-19 for this year's school year and how vaccines may impact school and activity attendance and quarantining. Updated information will also be provided in regards to the COVID-19 Vaccine and kids 12 and up.

Join us on Facebook Live as representatives of the Community COVID-19 Vaccine Coalition including:

**Dr. Saima Hussain,**  
Longstreet Clinic  
Pediatrician

**Dr. Megan Farley,**  
Longstreet Clinic  
Pediatrician

**Dr. Supriya Mannepalli,**  
Northeast Georgia Health  
System's Medical Director  
for Infectious Disease

**Dr. Zachary Taylor,**  
Georgia Department of  
Public Health's District 2  
Medical Director

*Representatives from local school systems will also participate.*

"If you haven't already, now is the time to start the process of vaccination if you want your child fully vaccinated at the start of the school year. With the Pfizer vaccine being a two-dose shot it, is a five-week process to benefit from full immunity from the vaccination."

- Saima Hussain, MD, Longstreet Pediatrician
