

LANIER COLLEGE & CAREER ACADEMY PROGRAMS OF CHOICE

LCCA STUDENTS ARE CAREER READY!

SPECIALIZED WORK-READY PROGRAMS OF CHOICE

The Lanier College & Career Academy mission centers on the philosophy of “LCCA Students are Career Ready”. In order to achieve our mission we have focused on the needs of local business and industry to enhance our instruction and develop programs that ensure our students gain the skills necessary to meet the demands of the job market. Our partnership with Lanier Technical College enhances this goal through dual enrollment course work. Students will earn industry-recognized certifications, which can also lead to a diploma or degree in their specialized work-ready area.

Hall County students now have a Program of Choice option that focuses on their desire to link passions of interest to real life experiences with our business and industry partners. Students will be involved in youth-based apprenticeships that could lead to post-secondary full-time employment.

SPECIALIZED WORK-READY PROGRAMS OF CHOICE

AGRICULTURAL MECHANICS/ INDUSTRIAL ELECTRICIAN CERTIFICATION

With the demand for skilled tradesman at an all-time high, this program is designed to fill the growing need for professional electricians and industrial maintenance personnel in the global market. Upon successful completion of the program, students will understand electrical safety, basic blueprint reading, basic AC electrical theory, basic DC electrical theory, residential & industrial electricity installation practice, electrical testing/troubleshooting, electric motor theory, and industrial machine maintenance.

AGRICULTURAL MECHANICS/ WELDING WITH CERTIFICATIONS

Welding is a vital part of society's infrastructure. As a result, career opportunities in the welding field are endless and in-demand. Upon successful completion of this program students will learn basic blueprint reading, metallurgy, safety, testing, fabrication, as well as inspection. Theoretical and practical study covers carbon steel, aluminum, stainless steel, and other materials. Curriculum includes instruction in oxy-fuel cutting, shielded metal arc, gas metal arc, and gas tungsten steel welding techniques.

COSMETOLOGY (LCCA)/ STATE COSMETOLOGY BOARD LICENSURE

This program is designed to provide competency-based knowledge, scientific/artistic principles and hands-on fundamentals associated with the cosmetology industry. Our program follows the Georgia Board of Cosmetology requirements, including 1500 clock hours of practical and theory work. Once all requirements are met, students will be eligible to take the Georgia Cosmetology License exam to become a Master Cosmetologist.
