

2022 Summer School Contract

General Summer School Information

Dates: June 6 - 30, 2022

Hours: 9:00 AM - 3:00 PM (Monday - Thursday)

Location: Home high school

***Transportation is not provided.**

Description: Hall County School District's high school summer program is provided primarily through online instruction along with summer school teachers to facilitate student learning. Designed to help students graduate on time from high school, these online courses are aligned to the state curriculum and are self-paced. The high school summer school program provides two options for taking courses needed for high school graduation: credit recovery and initial credit. "Credit recovery" is for students who have failed one or more courses needed for high school graduation. Maximum grade for a "recovered" credit course is 70%. "Initial credit" is for students who enroll in a course for the first time and earn a final grade of 70% or higher. Students enrolling in computer-based credit recovery classes earn Level 1 credit only. (See Hall County High School Student Planning Guide for more information about Level 1 courses and GPA calculations.)

Because summer school courses are taught through computer-based, online instruction, students who have an internet connection may work from home, 24 hours a day, seven days a week. Students may also work on courses on campus during the days and hours shown below. Students must take all tests in the classroom at the school campus. No tests will be available to students at home.

**Note: To complete these courses during the summer, a student MUST be logged on and "active" at least five hours per day. Students who spend less than five hours per day risk not finishing a course by the end of the session. Students who do not complete these courses may have opportunities to finish before, during or after school, depending on individual schedules and courses, when the new school year begins.*

NCAA: Credit earned by Edgenuity online instruction is not accepted for core credit by NCAA.

Behavior: Students attending the summer program shall follow all rules in the Hall County Schools Code of Conduct printed in the high school handbook. (A copy of the handbook is available in the school office as well as online at www.hallco.org.) Students who choose to work on courses at the school campus are expected to use the computer labs for instructional purposes only; non-instructional use is prohibited. Any misuse of computers or other technology will result in immediate removal from the summer program. Students must display respectful behavior toward the teacher, other students, and the school facility itself. If any violations of the Code of Conduct occur, a student is subject to immediate removal from the summer school program.

Attendance: All students must report for the first day of class on June 6th. **The computer lab will be open Monday through Thursday from 9:00 AM – 3:00 PM.** Each student will have the opportunity to work from the computer lab or log on and work from home. All exams and Georgia’s Milestones End-of-Course (EOC) Test will be administered in the school computer lab. All Milestones EOCs will be given on June 28th, June 29th, and June 30th. ***Remember: To complete a course during the summer, a student should be logged on and “active” at least five hours per day. Students who spend less than five hours per day in active learning risk not finishing a course by the end of the session. Students must attend the session for which they have registered. Failure to log on and produce active progress will result in removal from the summer school program.***

This Summer School Contract must be signed and returned to the school office by **Friday, May 20th**. Students failing to return the agreement by the deadline will lose computer access and will not be allowed to continue/begin class on Monday, June 6th.

We have read the above expectations for summer school and agree to abide by the conditions.
