\*CARES Act funding is a reimbursement basis grant from the federal government in response to the Coronavirus epidemic. It is the District's intent to use these funds to preserve educational positions and services that would otherwise be eliminated due to reductions in state funding as a result of the epidemic. CARES Act funding is shown as a revenue in the general fund due to the fact that specific positions to be paid from the CARES Act will be finalized with the passage of the final version of the budget. For the time being, CARES Act funds are shown in the general fund to illustrate the District's intention to use federal funds to preserve instructional positions. CARES Act funds are also shown in their own federal fund elsewhere within the budget. The placement of CARES Act funding in two locations is not in accordance with GAAP, but, prior to passage of the final budget, revenues and expenditures attributable to the CARES Act will no longer be shown in the general fund and will be shown only in the CARES Act fund.

For HMP, these summer work days allow us to secure mentorship placements for our HMP students before school starts and continually review and improve application/selection procedures, curriculum, and program evaluation responsibilities. I am requesting an increase here, because SEARCH and our POCs have required more summer work as we rebuild programs after Covid, and what I have left in the balance for June will not be enough for this year's plans.

In the past, we have required payment from students to be able to pay salaries that are outdated in terms of teacher time. For FY 24, I would like to continue to pay for teachers at their hourly rate while allowing access to Summer Search for students who may not be able to pay, primarily students from high poverty schools. 12 Teachers x \$850 = \$10,200.

99	Ecke	100-1000-1041-561000-108-8010-0000-0000-0000-	Supplies	\$ 25,000.00	\$ 25,000.00	AP Science lab materials. In recognition that rigorous instruction in these courses requires consumable supplies for authentic lab experiences, we provide additional support of instructional budgets. I divide these funds between high schools in proportion to their enrollments in AP science courses.
100	Ecke	100-1000-9990-561000-108-8010-0000-0000-0000-	Supplies	\$ 24,000.00	\$ 31,500.00	(1) Tests required to determine SEARCH Program eligibility. We are increasing our gifted identified students, particularly those from diverse populations. (CogAT: \$18,000; Torrance scoring: \$5,000; Iowa Acc. Scale: \$500) (2) SEARCH Program and Honors curriculum materials: Periodic review of our SEARCH curriculum and SEARCH PLC activities revealed needs to add units in mathematics and ELA to support advanced students' growth on MAP testing; strengthen our units' connections to the HallCo literacy initiative; and develop support materials for classroom differentiation that help teachers emphasize challenge and creativity in content instruction (\$8,000).

I would like to continue to pay for their convention costs, and these funds would cover mileage, hotel, and meals for up to 5 teachers/leaders to attend the NAGC Convention in Orlando in 2023, an experience that will further increase their expertise in rigorous, innovative programming (5 x \$1400 = \$7000). Additionally, employee travel to GAGC may come from this budget line, and Anna is able to pay for 15 additional GAGC registrations; For the Learning Forward conference, Confratute, APSI, AP National Conference, GLMA Summer Institute, and AASL Conference, these travel funds are increased for FY 24. (Although there is an increase in this budget, because of canceling the previous budget lines for gifted instructors, the overall PL budget will still be \$8,000 less than FY 23.)
