LANIER COLLEGE & CAREER ACADEMY PART-TIME PROGRAMS

CAREER TECHNICAL & AGRICULTURAL EDUCATION

[Click for details on pathways](#)

[LCCA Video](#)

Lanier College & Career Academy focuses on creating "Career Ready" students. We have options for full-time and part-time enrollment, as well as several options for Dual Enrollment through Lanier Technical College. Students gain real-world experience through our industry certified classrooms, CTAE pathways, Dual Enrollment opportunities, and student-based enterprises. LCCA students earn a variety of professional certifications and industry credentials that are sought after within our local business and industry sectors. Students in their first year of high school may only attend LCCA as part-time students.

NAVY ROTC at

[Click here for Navy ROTC information](#)

The Navy Junior ROTC Program at East Hall High School provides students with an outstanding means to develop their leadership skills and become active and productive citizens. NJROTC is a hands-on leadership laboratory, where cadets learn the fundamentals of leadership and management by running the cadet company. Other objectives include: promoting patriotism; developing informed and responsible citizens; promoting habits of orderliness and precision; and developing personal honor, responsibility and self-discipline. Cadets incur no military obligation, but there are benefits for those who enlist in the military after high school graduation, and qualified students are eligible for special college scholarship opportunities.

NJROTC is open to all Hall County students in grades 9-12, as well as East Hall Middle School 8th graders. There is no formal application process; however, cadets must be capable of participating in the school's physical fitness program. Cadets are also expected to maintain acceptable standards of conduct and academic achievement.

Create Your Future.

The Virtual Program of Choice:

<https://virtualpoc.hallco.org/>

Application information for the 2026-27 school year will be available at

[:https://virtualpoc.hallco.org/](https://virtualpoc.hallco.org/)

The purpose of the VPOC is to build a connected community of teachers, staff, families, and students who will thrive in virtual learning.

Accepted students will take all of their classes virtually. The virtual classes will have both synchronous and asynchronous components, and students can expect to have regularly scheduled live class sessions every week during the school day, as well as independent learning activities. Students can participate in after-school extracurricular activities in their home school (zoned school or where student is currently enrolled).
